IALCCE

The International Association for Life-Cycle Civil Engineering (IALCCE) was founded in Seoul, Korea, in October 2006. Complete and updated information about IALCCE is available on the official website of the Association: www.ialcce.org.

FIELD OF ACTIVITY

The activities of the Association will cover all aspects of life-cycle assessment, design, maintenance, rehabilitation and monitoring of civil engineering systems.

MISSION

The mission of the Association is to become the premier international organization for the advancement of the state-of-the-art in the field of life-cycle civil engineering.

OBJETCTIVE

The objective of the Association is to promote international cooperation in the field of life-cycle civil engineering for the purpose of enhancing the welfare of society.

ACTIVITIES

In order to fulfill its mission and objective, the Association will organize congresses, conferences, symposia, workshops, seminars, and short courses on the related topics. The Association intends to cooperate with other organizations, including AASHTO, ACI, AISC, ASCE, CERRA, ESRA, fib, IABMAS, IABSE, IASSAR, ICE, IFIP, JCSS, PIARC, and RILEM, having interest in the field of activity of IALCCE. The list of events sponsored by IALCCE is available on the website of the Association: www.ialcce.org.

MEMBERSHIP INFORMATION

Membership will include individual members and collective members. An individual member of IALCCE shall be a person who is involved in the areas of activity covered by the Association, possesses appropriate knowledge and is willing to support the mission and objective of the Association. A collective member of IALCCE shall be an organization having technical or scientific interest in the Association, such as institutions, universities, qualified firms, and libraries.

JOIN IALCCE

To apply to become a member of IALCCE, please visit the IALCCE website at www.ialcce.org, choose the appropriate online application form (individual or collective) and submit all the requested information to IALCCE Secretariat.

NATIONAL GROUPS

To better coordinate its activities, IALCCE provides the possibility of establishing national groups.

IALCCE Dutch Group

The Dutch group of IALCCE aims to connect national and international developments in the field of Life-Cycle Civil Engineering, in close cooperation with other Dutch organizations. Results of IALCCE international activities are shared, and opportunities for international cooperation are promoted.

2008

IALCCE 2008

The *First International Symposium on Life-Cycle Civil Engineering* (IALCCE'08) was held in Varenna, Italy, on June 10-14, 2008 (<http://www.ialcce08.org>). The proceedings of IALCCE'08 have been published by CRC Press, Taylor & Francis Group, as a set comprising a hardbound Book and a CD-ROM containing 150 papers, including eight keynote papers and 142 technical contributions from 28 countries. The extended version of selected papers included in the proceedings have been published in a Special Issue of *Structure and Infrastructure Engineering: Life-Cycle of Civil Engineering Systems*, F. Biondini & D.M. Frangopol (Eds.), Vol. 7, Nos. 1-2, 2011, 197 pages.

2010

IALCCE 2010

The *Second International Symposium on Life-Cycle Civil Engineering* (IALCCE 2010) was held in Taipei, Taiwan, on October 27-30, 2010. The proceedings of IALCCE 2010 have been published by Taiwan Tech, National Taiwan University of Science and Technology, as a set comprising a hardbound Book of abstracts and a CD-ROM of full papers, including ten keynote papers and 115 technical contributions. The extended version of selected papers included in the proceedings have been published in a Special Issue of *Structure and Infrastructure Engineering: Advances in Life-Cycle of Civil Engineering Systems*, F. Biondini & D.M. Frangopol (Eds.), Vol. 10, No. 7, 2014, 85 pages.

2012

IALCCE 2012

The *Third International Symposium on Life-Cycle Civil Engineering* (IALCCE 2012) was held in Vienna, Austria, on October 3-6, 2012 (<http://www.ialcce2012.org>). The proceedings of IALCCE 2012 have been published by CRC Press, Taylor & Francis Group, as a set comprising a hardbound Book of extended abstracts and a DVD with 344 full papers, including the Fazlur R. Khan lecture, ten keynote lectures, and 333 technical contributions from 52 countries. The extended version of selected papers included in the proceedings have been published in a Special Issue of *Structure and Infrastructure Engineering: Life-cycle performance of civil infrastructure systems*, F. Biondini & A. Strauss (Eds.), Vol. 12, No. 7, 2016, 60 pages.

2014

IALCCE 2014

The *Fourth International Symposium on Life-Cycle Civil Engineering* (IALCCE 2014) was held in Tokyo, Japan, on November 16-19, 2014 (<http://www.ialcce2014.org>). The proceedings of IALCCE 2014 have been published by CRC Press, Taylor & Francis Group, as a set comprising a hard-bound Book of extended abstracts and a DVD with 312 full papers, including the Fazlur R. Khan lecture, seven keynote lectures, and 304 technical contributions from 38 countries. The extended version of selected papers included in the proceedings have been published in a Special Issue of the international peer-reviewed journal *Structure and Infrastructure Engineering*, Taylor & Francis.

2016

IALCCE 2016

The *Fifth International Symposium on Life-Cycle Civil Engineering* (IALCCE 2016) was held in Delft, The Netherlands, on October 16-20, 2016 (<http://www.ialcce2016.org>). The proceedings of IALCCE 2016 have been published by CRC Press, Taylor & Francis Group, as a set comprising a hard-bound Book of extended abstracts and a USB card with 333 full papers, including the Fazlur R. Khan lecture, nine keynote lectures, and 323 technical contributions from 44 countries. The extended version of selected papers presented at the Symposium have been published in a Special Issue of the international peer-reviewed journal *Structure and Infrastructure Engineering*, Taylor & Francis.

2018

IALCCE 2018

The *Sixth International Symposium on Life-Cycle Civil Engineering* (IALCCE 2018) was held in Ghent, Belgium, on October 28-31, 2018 (<http://www.ialcce2018.org>). The proceedings of IALCCE 2018 have been published by CRC Press, Taylor & Francis Group, as a set comprising a hardbound Book of extended abstracts and a USB card with 399 full papers, including the Fazlur R. Khan lecture, eight keynote lectures, and 390 technical contributions from 52 countries. The extended version of selected papers presented at the Symposium have been published in a Special Issue of the international peer-reviewed journal *Structure and Infrastructure Engineering*, Taylor & Francis.

2020

IALCCE 2020

The *Seventh International Symposium on Life-Cycle Civil Engineering* (IALCCE 2020) was held in Shanghai, China, on October 27-30, 2020 (<http://www.ialcce2020.org>). The proceedings of IALCCE 2020 have been published by CRC Press, Taylor & Francis Group, as a set comprising a hardbound Book of extended abstracts and a USB card with 225 full papers, including the Fazlur R. Khan lecture, eight keynote lectures, and 216 technical contributions. The extended version of selected papers presented at the Symposium have been published in a Special Issue of the international peer-reviewed journal *Structure and Infrastructure Engineering*, Taylor & Francis.

2023

IALCCE 2023

The *Eighth International Symposium on Life-Cycle Civil Engineering* (IALCCE 2023) will be held at Politecnico di Milano, Milan, Italy, on July 2-6, 2023 (<https://ialcce2023.org>). The proceedings of IALCCE 2023 will be published by CRC Press, Taylor & Francis Group, as an Open Access Book containing the 514 full papers, including the Fazlur R. Khan lecture, nine keynote lectures, and 504 technical contributions from 45 countries. The extended version of selected papers presented at the Symposium will be published in a Special Issue of the international peer-reviewed journal *Structure and Infrastructure Engineering*, Taylor & Francis.

SIE INTERNATIONAL JOURNAL

SIE

Structure and Infrastructure Engineering - Maintenance, Management and Life-Cycle Design and Performance is an international peer-reviewed scientific journal endorsed by IALCCE, and included in the ISI Science Citation Index. This journal is dedicated to recent advances in the field of life-cycle performance of a wide range of structures and infrastructures, such as: buildings, bridges, dams, underground constructions, offshore platforms, pipelines, naval vessels, ocean structures, nuclear power plants, airplanes and other types of structures (<http://www.tandfonline.com/sie>).
